

# **Hills School Mission Statement**

Our mission at Stella Hills is to provide a rigorous and challenging instructional program which incorporates technology as a tool for accessing information and delivering curriculum.

## **Goals**

1. To create a learning environment in the classroom where students have equal access to technology which will be used for research, instruction, and communication.
2. To form a link between technology and the curriculum.
3. To maintain an environment where students are able to access the Internet for information.
